

Did you know that natural rubber is used to save lives?

As the Coronavirus (nCoV) spreads globally, estimates show this will increase demand by approximately **7 billion gloves**.

Natural latex is the choice raw material for medical gloves due to its Form, Feel, Fit and Function.

Superior **elasticity** – 15% more ultimate elongation

Superior **viral and bacterial barrier**

40% more **tensile strength**

Better **dexterity and sensitivity** for fine movements

Other latex medical uses

Natural rubber latex is an irreplaceable material in the medical industry. In 2018, Halcyon Agri's delivered natural rubber latex was used to produce the following:

3 billion
condoms

+

61 million
catheters

+

3.9 billion
latex gloves

+

32,000 km
of medical tubing
